

CMA Certification: In Vessel (CMA-I)

August 23, 2024

Amended: January 02, 2025

Papeteries Du Léman
1080 Rue des Vignes Rouges
74500 Publier
FRANCE

This certifies that the following materials have met the Compost Manufacturing Alliance (CMA) standards for commercially compostable products by passing laboratory standards and commercial composting field testing disintegration standards.

Papeteries Du Léman CMA-I Certified Products		
Product Description	Field Test	Expiration Date
PRIMABAKE STAR Bleached 45 gsm	CG127.5	10/09/2027
PRIMABAKE STAR Bleached 41 gsm	CG127	08/23/2027
PRIMABAKE LIGHT Bleached 41 gsm	CG127	08/23/2027
PRIMABAKE STAR Unbleached 41 gsm	CG127	08/23/2027
PRIMABAKE LIGHT Unbleached 41 gsm	CG127	08/23/2027
PRIMASTRAW 28 gsm	CG127	08/23/2027

- Certified materials are suitable for commercial collection but may not be suitable for residential curbside collection.
- Materials are certified only for food or yard waste related applications.
- CMA reserves the right to require periodic re-evaluation for recertification as early as one year after date of initial acceptance.
- The listed products are considered CMA-I accepted. However, individual facilities may have additional requirements for acceptance of specific items or categories, which are subject to change at the individual facility's discretion. Specific governmental jurisdictions may also have specific requirements for marking or labelling compostable products. CMA acceptance does not imply compliance with specific facility or legal jurisdictional requirements.
- Certification does not authorize the use of the CMA name or logo without a separate licensing agreement.

CMA Certification Specification Sheet

Product ID	Manufacturer	Grammage (gsm)	Configuration	Compost Technology
PRIMABAKE LIGHT Bleached	Paperteries Du Léman	41	Sheet, Roll	CMA-I
PRIMABAKE LIGHT Unbleached	Paperteries Du Léman	41	Sheet, Roll	CMA-I
PRIMABAKE STAR Bleached	Paperteries Du Léman	45	Sheet, Roll	CMA-I
PRIMABAKE STAR Unbleached	Paperteries Du Léman	41	Sheet, Roll	CMA-I
PRIMA-STRAW	Paperteries Du Léman	28	Sheet, Roll	CMA-I

The materials listed on this specification sheet have been evaluated by CMA and all certification requirements have been met. The certification pertains to only the materials listed above. Any product using the certified material(s) must be evaluated independent of this certification. Products that are constitutively identical and the same configuration as the certified material may be line-item accepted at CMA's discretion. If the finished product is identical to the material, the CMA material certification can be used to demonstrate passing laboratory and field tests. For single-layer materials, the material is certified at the maximum grammage listed above; any thinner construction is also considered certified.

This certifies that the following materials have met the Compost Manufacturing Alliance (CMA) standards for commercially compostable products by passing laboratory standards and commercial composting field testing disintegration standards.

Papeteries Du Léman CMA-W Certified Products		
Product Description	Field Test	Expiration Date
PRIMABAKE STAR Bleached 45 gsm	SLC24	12/04/2027
PRIMABAKE LIGHT Bleached 41 gsm	SLC24	12/04/2027
PRIMABAKE STAR Unbleached 41 gsm	SLC24	12/04/2027
PRIMABAKE LIGHT Unbleached 41 gsm	SLC24	12/04/2027
PRIMA STRAW 28 gsm	SLC24	12/04/2027

- Certified materials are suitable for commercial collection but may not be suitable for residential curbside collection.
- Materials are certified only for food or yard waste related applications.
- End products using these materials must comply with CMA Material Acceptance and Certification Policy and shall be evaluated.
- CMA reserves the right to require periodic re-evaluation for recertification as early as one year after date of initial acceptance.
- The listed products are considered CMA-W accepted. However, individual facilities may have additional requirements for acceptance of specific items or categories, which are subject to change at the individual facility's discretion. Specific governmental jurisdictions may also have specific requirements for marking or labeling compostable products. CMA acceptance does not imply compliance with specific facility or legal jurisdictional requirements.
- Certification does not authorize the use of the CMA name or logo without a separate licensing agreement.
